

Congratulations

Professor Elizabeth Lee!

Since her appointment in 1992, Professor Elizabeth Lee has been instrumental and a key driver in the development of Sunway Education Group – from the pioneering of Sunway College (a single institution, then) to leading the dynamic group of 17 world-class institutions today, catering to over 30,000 students from 90 countries worldwide.

Professor Elizabeth's outstanding achievements in the field of international education, tireless efforts to champion education, and invaluable contribution to the Malaysian education sector, primarily the private education, led her to two honorary doctorates awarded by the University of Nottingham UK and Victoria University, Melbourne Australia. She continues her mission to make an impact at strategic and policy levels in the field of education through her involvement in various government-led entities, such as the National Higher Education Research Institute and the Malaysian Qualifications Agency Council, to help improve the education ecosystem.

For I believe a good education is an investment in knowledge and we all know that knowledge is power. But more fundamentally, knowledge is also the fuel to the survival of mankind, next to food. A society without education is like a world without light. Every child, regardless of background, must have access to education,

said Professor Elizabeth Lee
