

Clubs & Societies Induction Days

The Clubs and Societies Induction Days at the College are always exciting as students "solicit" other students to come join their Clubs. It is time for the meeting of soul-mates who sign up to come

together more often throughout their stay at the College in pursuit of extra curricular interests. Remember - all work and no play makes Jack a dull boy. The College is very concerned about the overall

development of its students through healthy and wholesome extra-curricular activities, guided by caring and active teacher advisers.
