

# SUNWAY COLLEGE LIBRARY

Less than two months before the commencement of the Engineering course, hardly three months before the Western Michigan University and the Curtin University degree programmes began, and with two other courses beginning in early October 1987, the task of setting up a library from virtually nothing was not an enviable one. Nevertheless, after seven months of sheer hard work, the library is eventually set on a firm footing. What seemed impossible has become a reality.

With the number of students increasing rapidly, as well as the introduction of five new courses this year, the expansion of the library seems to be of utmost necessity. As a matter of fact, the classrooms directly above the library have now being converted into a study area for the library. Upon completion, the library will be able to cater to the needs of the ever expanding student population.

Since the library was established in May 1987, much progress has been made. We have successfully secured a total of 1,350 titles, of which some are available in more than one copy, thus making the total number of volumes fast approaching the figure 3,000. In addition, we are subscribing to 62 local and foreign well-known periodicals. All these are shelved under five different collections, namely; Reference, Open Shelves, Law, Blue Spot and Serials.

The Library Collection will be further enhanced with the arrival of a lot more new titles early in 1988.

**Some law students referring to law documents in the library.**
