

THE STUDENT AFFAIRS DEPARTMENT, SUNWAY COLLEGE

COLLEGE COUNSELLING UNIT

The Counselling Unit, located on the first floor of the College building, provides counselling to students and prospective students. The Unit provides a range of services designed to benefit students during the course of their studies in Sunway College.

The counselling service is available to provide information, counsel and help to students. The following areas illustrate some of the problems experienced by students: adjustment to college life, vocational indecision, social, personal, family and financial problems.

The Counselling Unit from time to time also provides effective study skills workshops to improve the students academic performance. As a start, on the 24th March, 1988 in the Auditorium, Encik Wan Abdul Rahman gave a talk on "Fear The Art of Time Management".

STUDENTS' COUNCIL

A Students' Council was formed on 10th March 1988. The Students' Council is a body which represents students' views and

provides social activities for its members. All students of the College are automatically members of this body.

Basically, the objectives of the Students' Council are:

- i) To coordinate student activities, ie., the student lounge, the newsletter, social functions and orientation programmes.
- ii) To provide a venue for them to air their grievances to the management.

At present, the Students' Council comprises two staff from College, two representatives from each university and from the TEE, with the exception of Leicester University which will be represented by three students, one from each degree programme.

A problem-committee was set up for two months to enable the representatives to get to know one another before electing permanent office bearers.
