MARCH 1990

KDN PP 6/6/1990

ANNUAL DINNER & DANCE DEWAN MERDEKA, PUTRA WORLD TRADE CENTRE.

Saturday, January 13, 1990.

Dato' and Datin Jeffrey Cheah ushering the late YAB Tun Hussein Onn and wife Toh Puan Suhaila.

rious challenges. Indeed, probably the most serious of these were faced in the recent recession which had a major impact upon our group. Probably one of the biggest lessons that we have learnt is the value of taking time to pause and reflect about our pattern of growth and where we are heading. This and other lessons we have profited by will stand us and our businesses in good stead in our drive to expand by exploiting the many opportunities we see around us. While 1988 was a turning point for our group, our performance in 1989 has been up to my expectations and, for certain subsidiaries, even exceeded our forecasts.

CONT. ON PAGE 8

SPEECH BY GROUP MANAGING DIRECTOR

Yang Amat Berbahagia Tun - Hussein Onn & Toh Puan Suhaila, Tan Sri - Tan Sri, Puan Sri - Puan Sri, Dato'-Dato', Datin-Datin, My dear colleagues from the SungeiWay Group valued business associates and friends, ladies and gentlemen.

A very good evening and welcome to our annual dinner and dance.

Our gathering tonight has a special meaning for my colleagues in the SungeiWay Group and to me personally. We have just witnessed the passing of a decade of dramatic changes, and we see ahead

of us a very challenging journey into the closing of the 20th century and the beginning of a new millennium.

Many of you are aware about the humble origins of our group as a tin-mining company in the Klang Valley in 1974. In a relatively short decade and a half, the group has broadened the range of its business pursuits and now has major businesses in Malaysia and interests in Singapore, Indonesia and Australia. Our evolution into the dynamic and diversified conglomerate you see today has not been without obstacles or se-

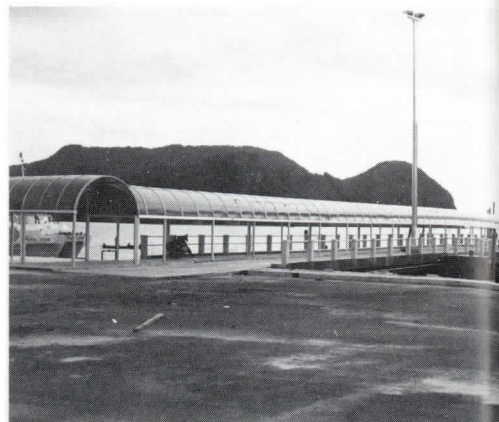

Dato' Jeffrey Cheah delivering his speech

EDITORIAL

Hi! It's back again. It's back to bring you more reading pleasure with slight changes to its appearance and layout. However, we apologise if we have kept you waiting for this issue. It was delayed due to some unavoidable turn of events. As a vehicle of communication within the Group, please feel free to contribute any articles, jokes, photographs or suggestions for Berita Sungei Way. You may direct all your material to the Public Affairs Division as the Berita Sungei Way is now our "bundle of joy!"

Something to wear proudly - it presents the image of you and SungeiWay, side by side.

For a change, KSS's 6th Annual General Meeting was held at the Dewan Sivik, Petaling Jaya. The change was meant to accomodate the increasing number of members every year but it was only attended by 141 members of KSS.

At the very beginning of his speech, Dato' Jeffrey Cheah stressed that he would like to see a better turnout the following year. He said, it was a deliberate strategy that the KSS's activities would cut across all subsidiaries and HQ, that rank and status of individual staff members would not be relevant and that as many interests

as possible would be catered to, irrespective of whether a person belonged to the managerial, executive or non- executive categories.

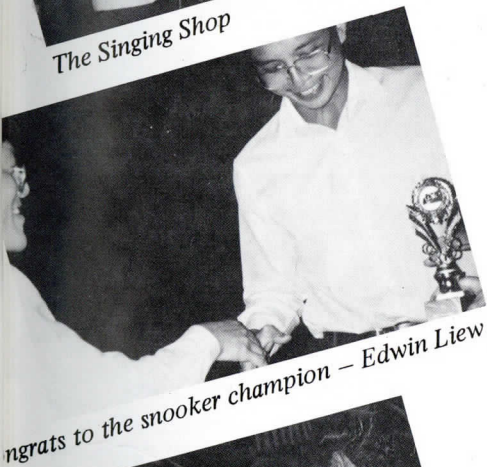

Next on the agenda was Election! It takes all kinds to make the perfect Executive Committee and the ideal combination is eleven incumbents from the various companies and division. That was exactly what we achieved at the AGM!

Of course, the following 'agenda' that we could never do without was a buffet dinner and entertainment by the fabulous Singing Shop.

MOVING ON

ADASIA

Adasia, a member of the Sungei Way Group, was set up in mid 1989, and headed by Mr. Liew Siew Choy, the Manager. Located at Damansara Jaya, Adasia is a full-fledged advertising agency.

PUBLIC AFFAIRS DIVISION

The Headquarters officially set up a new division on the 1st, January 1990 and is headed by Encik Abdullah Mohamed, the Manager. The setting up of Public Affairs Division, besides surfacing as a natural consequence of the Group's rapid expansion, serves to promote the good image of the Group. Its main function is to plan and implement PR activities geared towards the public, internal and external, as well as the government sector.

JEST THE WAY YOU LIKE IT

The jokes were narrated by D.W., an Australian serving under the British government as administrator during the Emergency period in Malaya.

Joke 1.

The platoon members were just coming back from patrolling the jungle which was believed to be infested by communist terrorist.

They were taking off their weapons at the ground floor when one of the rifles was accidentally fired, sending the bullet right up through the first floor, passing through between the legs of an operator, through the desk and ceiling.

There was a spell of silence especially when the platoon members heard foot steps coming down the wooden stairs. But, to the relief of everyone, there appeared a young sweet smiling face of a lady operator who said,

SUNGEI WAY RISK MANAGEMENT AND SUNGEI WAY LEASING

Sungei Way Risk Management and Sungei Way Leasing have moved to a new premise adjacent to Wisma Sungei Way on the 20th December, 1989.

They are now sharing the spacious building (above EON showroom) with Sunway College

SUNGEI WAY COMPUTER SERVICES

Sungei Way Computer Services Sdn. Bhd. has expanded its wing to IBM building. While certain divisions remain at the old premise, some moved into IBM, 5th floor on March, 1990.

"Gentlemen, your shooting had taught me a good lesson, not only to carry out my duty at ease but also to keep my legs apart."

Joke 2.

Addressing his troop, the Commander was heard saying, "The only way to teach this terrorist bastard a lesson is by having another tough bastard like me"

Immediately next day, the speech was translated into Chinese language in the Chinese newspapers, "The only way to teach these terrorist who were born from the unwed father and mother is by having another tough person like me who is also born from the unwed parents."

Joke 3.

A gentleman has three collection items : A black Jaguar, a silver colour Merce and a noisy, old squeaky Morris Minor — to remind him of his girlfriend, a young Negro actress, a German mistress and his own faithful wife.

Keep Fit and Trim

Bar

Unwind and soothe your nerves with a drink

Ping Pong

Players must keep their mouth shut throughout the game to avoid swallowing the ball

Dart

Just let it out...

Badminton *Beat it..*

Lounge

Or simply sit and relax and sing to your heart's content (with the Karaoke set)

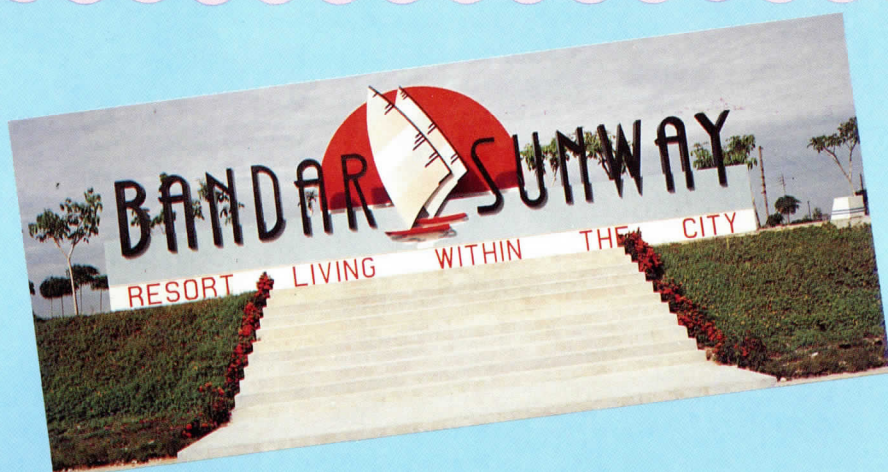

PRK BUILDS PIRELLI'S FACTORY WITHIN 4 MONTHS

The construction of the Moldip factory (a subsidiary of Pirelli Group of Italy) at the Bentong Industries Estate commenced in late April 1989 and was targetted to be completed in August the same year, that is, within a contractual period of 16 weeks. This tight time-table posed numerous challenges for PRK, but through good planning and a committed workforce, the job was completed on schedule. PRK which specialises in factory construction has managed to cut short construction time by starting the

construction of office and production sections simultaneously. The standing, portal frames and all other steel structures were fabricated in PRK's workshop at Bandar Sunway site, painted and transported to site for erection.

Among factories built at the Bentong Industrial Estate, the Moldip factory was the first to obtain a Certificate of Fitness on the 2nd September, 1989.

The SungeiWay Group, hallmark of dynamism, is scoring top marks with our landmarks which mark our supremacy in housing, education, construction and community services.

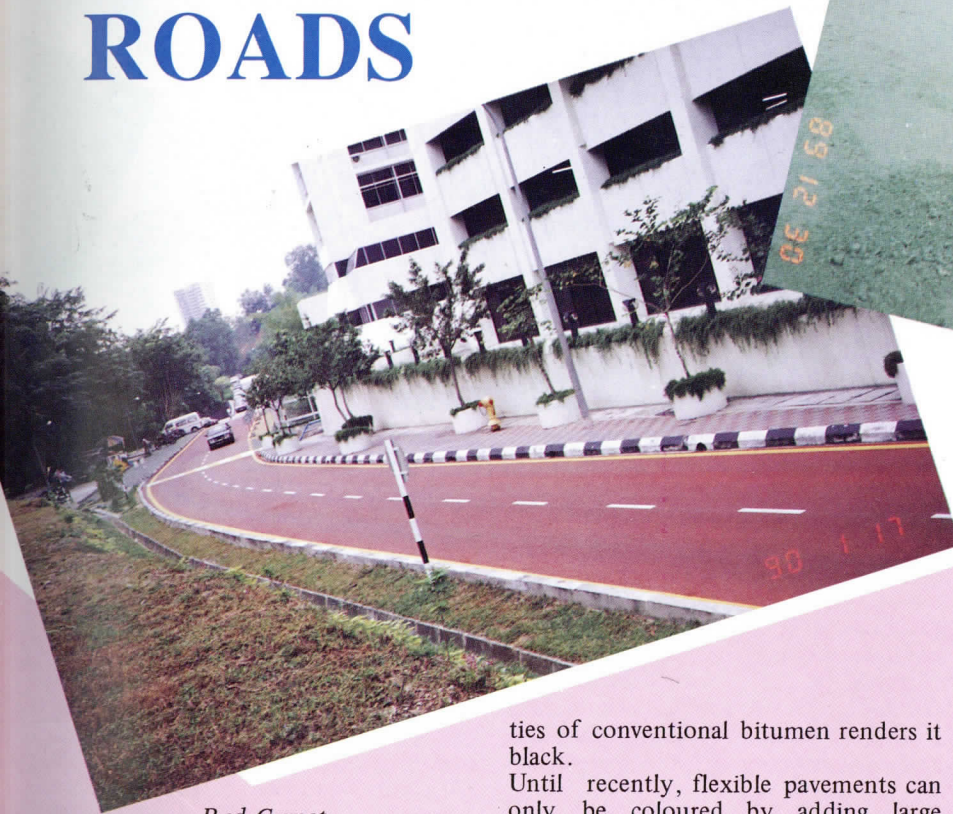

LAND MARKS

SUNGEI WAY QUARRY INDUSTRIES SDN. BHD. ADDS COLOURS TO MALAYSIAN ROADS

The green road being laid

Red Carpet

Sungei Way Quarry Industries Sdn. Bhd. has once again shown its market leadership by adding colours to Malaysia roads.

On 30th December, 1989 the main road at Shell House and Exchange Square, Damansara Heights, Kuala Lumpur was transformed into a red carpet using newly developed "Sungei Way Colour Premix".

Normal premix is a blend of aggregates (stones), sand and filled with bitumen acting as a binder. The natural proper-

ties of conventional bitumen renders it black.

Until recently, flexible pavements can only be coloured by adding large volumes of costly pigment, even then, only dull brown, red and dark green has been possible.

"SungeiWay Colour Premix" uses Shell Mexphalte C as binder and has the flexibility to produce a wide range of coloured premix such as blue, red, green, yellow and virtually any colour by adding a small amount of desired pigment.

These coloured premix can be produced and laid using existing Asphalt Plant and Conventional Paving equipment.

Coloured pavements are fast growing in popularity in Europe, Middle East and Australia. They are widely used in:

- * Alerting traffic such as crossing, bus stop and dangerous area.

- * Improving illumination in tunnels and flyovers by the use of light colours.
- * Increasing the aesthetic appeal of driveways, parks, pedestrian malls, parking areas, tennis courts and other similar pavements.

Adding colours to Malaysian Roads is Sungei Way's contribution towards "A Colourful Visit Malaysia Year." "Imagine the road in front of the Merdeka Square paved red or the road to the Agung's Palace in royal yellow." Constant development in new quality product such as "SungeiWay Colour Premix" has put Sungei Way Quarry Industries Sdn. Bhd. in the forefront of the road construction industry.

SUNGEI WAY ANNUAL DINNER & DANCE 1990

The clever entwine of laser beam marked the final countdown of Sungei Way's Annual Dinner and Dance 1990 — the biggest event of the year on SungeiWay's calendar. Excitement and joy pervaded the whole of Dewan Merdeka at PWTC which was packed with 1700 staff and their spouses, business associates and distinguished guests. The occasion was graced by the pesence of the late YAB Tun Hussein Onn and his wife, Toh Puan Suhaila. This much awaited yearly event which gathers all SungeiWayans, has always been a fun-filled rendezvous for staff of different companies within the Group.

The night kicked off with a slide presentation that was as impressive as SungeiWay's past performance. 1990 also marked the beginning of an annual Long Service Award, to those who have served the company for 10 years or more. Following which there were trails of entertainment by the Dance Company, The Sulianos, Elaine Kang and the Singing Shop.

As for details of the night, we have captured it on camera

LIEW CHOOI FOON
Public Affairs Division

CONT. ON PAGE 1

It is with pleasure and pride that I wish to report to you that our core activities, quarrying, construction and ready-mixed operations, have derived considerable benefits and spin-offs from the strong recovery of the Malaysian economy.

Installed capacity has been expanded quickly and considerably by either intensifying existing activities or establishing new operations, particularly in Selangor, Penang and Johore. These subsidiaries are well placed to reap even greater advantage from the infrastructural development strategy pursued by our government.

Bandar Sunway is fast establishing a solid niche for itself in the newly vigorous and competitive property market. Last November saw the launch of its first industrial units in the township, the public response to which has been very encouraging. More launches of a mix of development are planned and I am positive that our reputation for developing well-designed, value-for-money units will be well received. Our plans for developing bandar Sunway into a resort-like environment are fast taking shape. I would like to invite all of you to visit Bandar Sunway to

see for yourselves the development of a unique and innovative township. It is also with great pleasure for me to announce that our single venture into education has proven to be a sound one. Sunway college has, under three years, managed to turn around. More significantly, it has earned an envious reputation as a premier educational institution which views the business and responsibility of providing education most seriously.

Student numbers have more than doubled over the 1988 enrolment in both the matriculation and twinning degree programmes. In its continuous drive to provide the broadest range of quality options to all Malaysians, a twinning link has now been forged with Carleton University in Canada. This move, and others that we have initiated, will complement our relationships with reputable universities in the UK, US and Australia.

I have taken a personal interest in the development of the permanent campus of the college in Bandar Sunway and envisage construction to begin by the last quarter of 1990. This campus is the base on which we plan to reach our target population of 5,000 students.

I would like to record the achievements of Sungei Way Computer Services which has not only gained several awards as a leading IBM systems remarketeer but is exporting its expertise in manufacturing and education packages to such as Bangkok, Hongkong and Bombay.

The major trading arm of the group, Sungei Way Marketing, has broadened its agency lines and is busy developing a strong marketing network in Malaysia, Singapore, Indonesia and Australia. Time does not permit me to provide details of the excellent performance of our other business ventures including insurance, transportation, nursery and landscaping, engineering fabrication, interior design, advertising, heavy equipment trading, mining and leasing. Suffice it to say that I am exceedingly pleased with their operating results. Moving away from the eighties, it is necessary to start taking a measure of how the nineties will shape out. You are aware that 1990 is the year of the horse; this could imply a steady gallop into the next century or uncontrolled growth leading to a deep recession. Although not a fortune-teller, I nevertheless feel a great confidence in the strength and direction of economic

growth, both domestically and internationally.

The Malaysian economy is now set on a stable course with revitalized domestic and foreign confidence expressed by increasing infusions of investments. Externally, there are afoot many and varied political changes which are bound to impinge profoundly upon the international economic structure and trading relations. Chief among these are the loosening political hold on the eastern European economies and the run up to 1992 in Europe. While it is difficult to identify any particular trends, Malaysia possesses the discipline and the resources to build upon her strengths in the international market place.

In short, Ladies and Gentlemen I am optimistic that 1990 will see our group and its subsidiaries posting even more significant results than for 1989. For the next decade, the group will continue to explore the many opportunities that are presenting themselves both at home and abroad.

We will continue to adhere to our basic expansionist strategy of building upon our corporate strengths although I foresee, too, that we will be exerting more initiatives in the international

arena.

We will resort more seriously to acquisitions and joint-ventures as the vehicles for our future expansion. Just as many experts expect Malaysia to acquire the status of an emerging 'Dragon', the SungeiWay Group will realize its potential of becoming a dynamic dragon in the corporate scene in our country.

LADIES AND GENTLEMEN,

The success attained by the SungeiWay group and the corporate strengths with which it is associated are due in very large measure to the quality of our human resources. Without the hard work, dedication, motivation and commitment to excellence in action by our staff, it would have been impossible to be what we are and what we stand for today. I salute you, my colleagues in the SungeiWay Group, on your superlative performance, sense of dedication and commitment.

We have come a long way together and have proven our strengths, resilience and cohesiveness as a formidable team. With all of you alongside me, I firmly

believe that there is no challenge that will be too great for us to surmount. As we stand on the threshold of a new decade, let us march with confidence together into the 1990's and beyond. The future is ours and we will conquer it together.

LADIES AND GENTLEMEN,

I am also very proud to announce tonight that we will be presenting tokens of appreciation to 32 long-serving employees, who have served the group with loyalty and dedication for more than 10 years. Congratulations and well done to the 32 recipients! Coming back to tonight's function, I would like to extend my appreciation to the Kelab Sukan Sunway for all the hard work that its president and committee members have unselfishly borne to ensure that our annual dinner and dance a memorable one. Lastly, I wish all of you a very Happy and Prosperous New Year and hope that the year of the horse will bring to you all the success and good luck you deserve.

Thank You And Enjoy Yourself Tonight.

KSS President-Larry Yap delivering his speech.

"May I ask him for a dance?"

Boogey night

"My heart is for you" "Mine too"

GOING ONS AROUND THE GROUP

1 Sungei Way Construction Sdn. Bhd. has been awarded another \$15.8 million contract by Tanming Raya Sdn. Bhd. to develop its housing project in Sungei Besi - Balakong in Selangor.

2 The annual PCMs meeting held on 24th March, 1990 at the Holiday Villa.

3 Recipient of Dato' Jeffrey Cheah Scholarship Award - Ng Chee Kiat of Monash University.

4 Anti-smoking campaign organised by the Sunway College Students.

5 The annual Sunway College Academic Board Meeting held on the 27th March, 1990.

The Board comprises Chairman, the late YAB Tun Hussein Onn, Dr. Kenneth J.R. Edwards (Vice-Chancellor of Leicester University), Prof. Norman Greenberg (Senior Adviser to the President for International Affairs, Western Michigan University), Associate Prof. Andrew Nesdale (University of Western Australia), Mr. Anthony Pritchard (Monash University) and Dato' Jeffrey Cheah.

6 Towards A Better You- a fitness and grooming session organised by the HRD for the Group's secretaries.

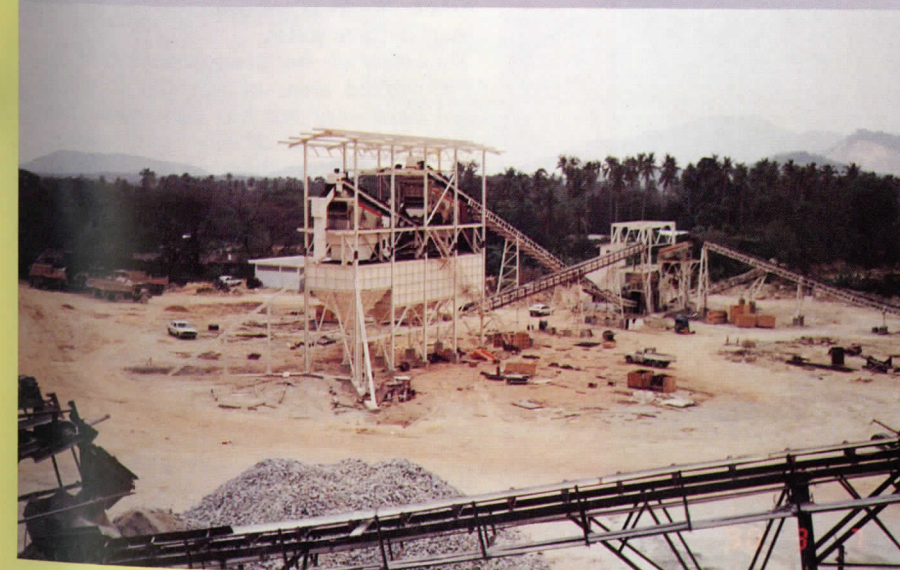

7 The "Classic" or Phase 6B was officially opened on January 21, 1990 by the President of Majlis Perbandaran Petaling Jaya - Tuan Haji Iskandar Astar.

8 A & W bear also made its presence during the opening.

9 The prize presentation for Bandar Sunway Newsletter's Children's Colouring Contest co-incided with the opening.

QUARRY PENANTI - ONE MORE TO THE LIST

Sungei Way Holdings through Sungei Way Quarry Industries Sdn. Bhd. acquired a quarry at Penanti near Butterworth, recently.

The quarry which started operations at the end of March, 1990, has a life span of 15 years.

The strategically located quarry, with good infrastructure, is to contribute to the increasing demand for aggregates (stones) and quarry products.

FROM ACROSS THE THE MILES....

GREETING FROM DOWN UNDER

“Sunway Corporation is now established and trading in an office and warehouse facility in Adelaide, South Australia. Todate, it has customers in three states.

The task of becoming established in the marked areas of our choosing has not been easy but has been made less difficult because of the co-operation, support and encouragement I have received from management and staff in Kuala Lumpur and Singapore.

Now is a special time to reflect on your success of the past year and I hope that everyone has an enjoyable time. The new year is full of challenge and excitement. I would like to wish the executive, management and staff of all companies in the Group, **A VERY HAPPY, SAFE AND PROSPEROUS YEAR.**

PATCH MASTER- THE FIRST IN ASIA

Sungei Way Construction Sdn. Bhd. was appointed by Thermal Power Corporation of USA as their sole distributor for Malaysia, Singapore, Thailand, Philippines, Indonesia, Hong Kong, Taiwan, Japan, Australia and New Zealand.

There are 4 types of machine developed by Thermal Power Corporation namely, Patch Master, Road Master, Thermal Master and Heat Master. A model of the Patch Master was purchased and displayed at the recent ROADEX 90 held at the Merdeka Stadium from 7th - 10th March. This is the first time ever such a machine was introduced in the Asean and Australasia region.

The response was encouraging whereby, an estimated total of 600 people visited our display booth. Among the distinguished visitors were the Honorable Prime Minister Dato' Seri Dr. Mahathir Mohamed, Public Works Minister, Dato' Leo Moggie and his Deputy, Dato' Alex Lee, Public Works Department (PWD) Director, Tan Sri Dato' Talha—and other PWD State Directors.

Eventhough it is still early to envisage its potential to sell, we are confident that we will achieve success in persuading the relevant authorities to purchase them.

KHAIRI OSMAN
Sungei Way Construction
