July - September 1990

KDN PP 6/6 1990

## Leicester University

# FOR PRESS .....

# 100% SUCCESS

All of the first group of students to go from Sunway College in Petaling Jaya, Malaysia to the Law Faculty at the University of Leicester have just graduated with an LLB with honours. In 1987, 35 students actually enrolled at Sunway College.

Five out of a total of 32 students obtained an upper second class degree and one, Jayakumar Nayar, received a first class degree. Mr Nayar was also awarded the May Fund prize for the best student dissertation and the Law Department Prize for the outstanding Part II performance.

In the second year, 42 Sunway students also performed very well in Leicester Law Faculty exams with a Sunway student, Ooi Huey Ling, winning the Maxell Prize for the best performance in Part I exams and the Cole and Cole Prize for the best performance in Land Law. Ms Ooi adds these prizes to the Toller Hales and the Colcutt Prize for Tort and the Law Faculty Prize for the best first year performance.

(Front L to R) Mr Chew, Dato' Jeffrey Cheah, Datin Susan Cheah, Dr L. J. Fredericks with graduates in Law from Sunway College, at the Degree Congregations, on 13th July 1990.

First year Sunway students, of which there are 47, also produced excellent performances in exams.

The innovative Sunway/Leicester venture involves students taking the first year of their LLB degree at Sunway College in Malaysia, following exactly the same courses as their contemporaries in Leicester Law Faculty. Lecture outlines and course materials prepared for the courses at Leicester are sent to Sunway and Leicester lecturers visit Sunway on a regular basis. Exams are set and marked in Leicester. Sunway

students then go on in the second and third years to Leicester, integrating with students who began their first year in Leicester, and completing their LLB studies in the usual way. Students can also follow the Sunway College route to degrees at Leicester in Economics and Engineering; the first students from Sunway to graduate in these subjects will take their finals next year.

The Law Faculty at Leicester feels that the exam performance of this first cohort of students is one indication of the success of this scheme.

# Selangor Education Department – Sunway College Inaugural Form 6 Inter School English Debate, 1990.

The Selangor Education Department and Sunway College Sdn Bhd together organised the Form 6 Inter – School English Debate between July 16 to September 3, 1990. Sunway College, a leader in twinning education, and a member of the SungeiWay Group, was allocated a sum of ten thousand dollars for the debate.

The final was held at Sunway College on September 3rd, 1990. Sekolah Menengah Kepong won the debate and a prize money of \$1,500.00. The runner-up was Sekolah Menengah (P) Sri Aman of Petaling Jaya. The topic “Higher Education in Malaysia fully prepares us for Adult Life” was well – debated and participants enjoyed listening to both sides.

A total of 21 schools throughout Selangor’s eight districts participated in the inaugural debate which was organised for the purpose of promoting the usage of English among secondary school students, especially among students of Lower and Upper Six classes and giving an opportunity to secondary students to practise their verbal skills in English.

The Royal Malaysian Police Body Building Team (RMPBBT) was formed in early 1988 and has its training centre at the Federal Police HQ, Bukit Aman.

The team, comprising 8 pioneer body builders, posses great potential to capture titles both at the national and international levels.

SungeiWay Group of companies being the main sponsor has presented a cheque of \$10,000 to be RMPBBT recently.

The sports club of the Group had also supplied the body builders who took part in the Mr. Asia in Kota Kinabalu (17th – 22nd October, 1990) and World Championship at PWTC, KL with track suits and sports bag.

Mr Chew presenting sports bags and track suits to President of the Malaysian Body Building Federation, Dato’ Seri Dr Ling Liong Sik

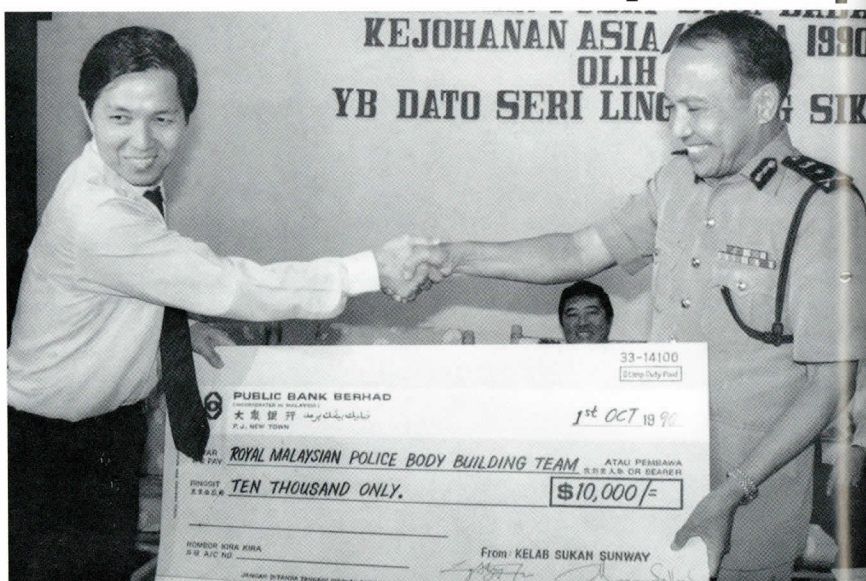

*Sitting (from L to R)*

# SEPTEMBER CHILD

*Datin Susan Cheah celebrating birthday with YM Tunku Arishah and Tony Caspio of the Singing Shop*

Datin Susan Cheah threw a birthday party for The Singing Shop and for all in SungeiWay Group who were born in September.

A September girl herself, Datin Susan Cheah was joined by 35 others.

*Happy faces of those celebrating their September birthday.*

*The Junior talents of Singing Shop – dancing to the beat of 'Push It' at the birthday party.*

## WE HAVE ALL THE MASTERS

Sungei Way Construction Sdn Bhd, currently the exclusive distributor for Thermal Power Corporation of USA, exhibited its range of Road Saving Machines during the TECHNOBUILD 90 EXHIBITION held at Changkat Pavilion from 27th – 30th August.

The machines on display were the Patch Master, Heat Master, and Roadmaster used in Asphalt Pavement Maintenance. Response from the steady stream of visitors was encouraging and

visitors were enthusiastic to see our machines in operation on our Malaysian Roads. Sungei Way Construction is poised to introduce this new technology to our Road Managers in Malaysia.

## THE SUNWAY CARNIVAL

The Sunway Carnival, a fund-raising event organised by the Student Council of the College, was held on the 8th September and 9th September 1990. The stalls put up by the students of the various programmes were indeed colourful and eye-catching. Proceeds from the carnival will be donated to two charitable organisations in Petaling Jaya – the Shelter House and Ozanam House.

The Carnival was officially opened by Dato Jeffrey Cheah. He then visited the stalls that had so much to offer by way of games, souvenirs and varieties of food. Other attractions of the carnival were a karate demonstration an academic exhibition and a Mensa IQ Test..

The event was also organised with the intention of :-

- 1) Giving the students an opportunity to build up Leadership qualities so as to enable them to organise and to learn from such experiences.
- 2) Encouraging group development in areas of team work and cooperation.
- 3) Creating a friendly and a family atmosphere within the college.
- 4) Encouraging extracurricular activities among students.

The Student Council would like to thank all contributors, participants and well-wishers for making the carnival a success.

Organising Committee  
Sunway College

# 'Tis The Season For Sports

and Evander Holyfield

# SUNGEIWAY CORPORATE HEADQUARTERS

A myriad of  
upholds its distinct fe  
living within the city, ce  
magnificent lake at Band

A water theme park  
water sports, wave pool  
beaches, picnic spots, etc  
punctuating the serenity  
the few waterfalls around

On the western side  
would be the new Sungei

campus and condominiums would be  
staggered at the southern slope  
overlooking the lake.

Amidst this scenic view, the  
SungeiWay corporate headquarters  
would be standing tall at the eastern  
side. Situated prominently by the edge  
of the cliff, it commands a panoramic  
view of the lake and its surrounding.

The 18-storey tower, surrounded  
by three lower office blocks of 6-storeys

each, is approached from a grand  
forecourt, aesthetically landscaped.

Inherent in this building is the  
colonial architectural design, which at  
the same time incorporates verandah  
ways, deep recesses and long overhangs  
which are considered sensible  
characteristics of buildings for the  
tropics.

When completed in 1993, this  
dynamic hall mark of SungeiWay would

include a penthouse office suite, gallery  
and exhibition hall for SungeiWay's  
products, conference rooms and  
auditorium and a clubhouse. This would  
house the presently scattered offices of  
various companies in the Group.

# GOINGS ON AROUND THE GROUP

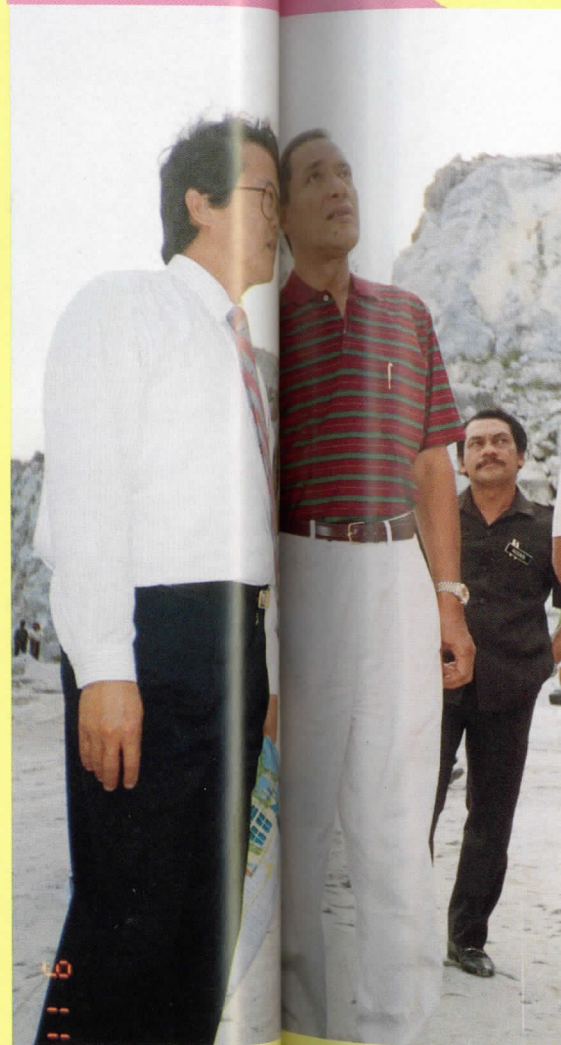

Annual Sungei Way Quarry Nite,  
1990 held at New Clubhouse on  
10th August 1990.

Press Luncheon – news release on Keramo Claypipes  
On 21 st July, 1990

Trip to Pulau Langkawi organised by  
Sungei Way Management for its staff  
30th August 1990 – 2nd September 1990

Selangor Chief Minister, Dato' Haji Mohd. Taib visited the  
Bandar Sunway recreation area in September 1990. Seen here together  
with the staff.

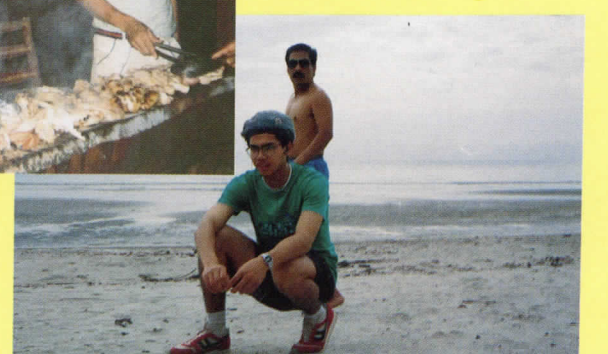

6th August 1990 – friendly badminton  
match with Hong Kong Shanghai Bank,  
Bukit Bintang branch.

3 weekends of "Customer Supplier  
Relation" for Sun Mix Concrete  
Staff.

KSS organised a trip to Tanjung  
Gelang, Kuantan from 29th September –  
1st October 1990

# KSS NITE

*KSS Nite falls on their birthday!*

On 8th September 1990, a kaleidoscope of red, black & white unfolded at Puteri Hall, Subang Parade.

The Kelab Sukan Sunway celebrated its 7th Club Anniversary, Annual Members' Nite and Prize presentation for winners of the Inter - Company Games Carnival.

This tri - celebration was appropriately known as the Tri - Colour Nite, made up of black, red and white.

The nite was filled with exciting programmes, put up by staff members. There was a mesmerising fashion show, featuring some 'amateur' and new faces alike. We were then whisked through a hilarious, exciting and entertaining moment when staff from various subsidiaries put their talent together in a talent show.

Last but a must, they boogeyed through the night.

**Liew Chooi Foon**  
Public Affairs Division

CONGRATULATIONS!

# SUNGEI WAY ENTERPRISE (1988) SDN BHD INTRODUCES The Improved Furukawa Hydraulic Crawler Drill

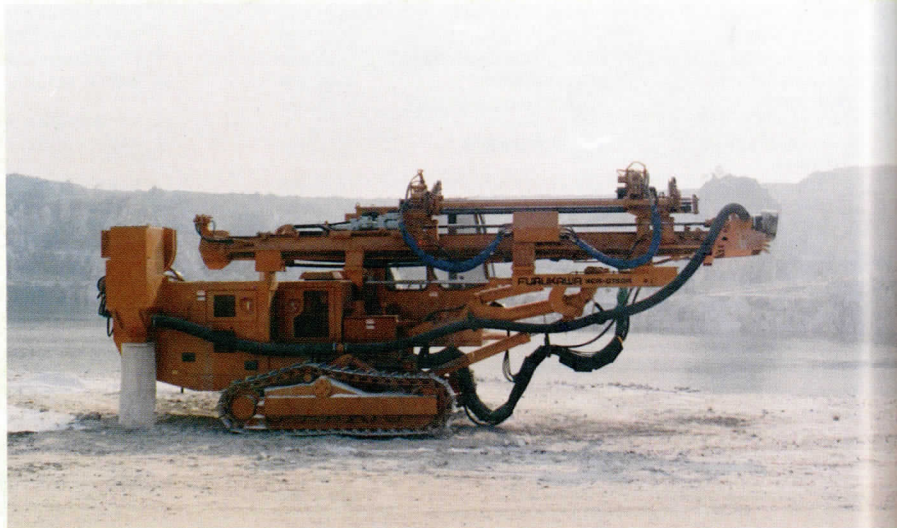

On the 12th of September 1990, Sungei Way Enterprise (1988) Sdn Bhd (SWE) held a demonstration to introduce the new generation of Furukawa Hydraulic Crawler Drill at its own quarry in Sungei Way. Over 150 of our customers from both the in-house companies as well as outside clients attended the demonstration. We were fortunate to have with us, Mr T Sato, an Engineer from the Furukawa Rock Drill Sales Co. of Japan, to demonstrate and to explain the workings of the machine and to answer the numerous queries from the invited guests.

Our guests were given a professional demonstration of the machine's capabilities by Mr Sato, and response from them were very encouraging indeed.

The drill has a drilling speed exceeding 100ft/hr (in limestone) and is being equipped with an automatic rod changing device. The machine also comes with a fully air-conditioned cab for the comfort of the operator. Operations are relatively quiet and with a very efficient dust suppression system. These features help to keep both the noise and dust levels down, thereby reducing environment pollution.

Currently, the hydraulic crawler drills are being used mainly at the larger quarries (e.g., SWQI and cement companies like APMC, etc.) but there is a worldwide trend towards the use of hydraulic crawler drill as it is more productive, has higher efficiency and produces less environmental pollution.

SWE is proud to be playing its part in promoting greater productivity and efficiency in the care of the environment.
