## New Campus For SUNWAY COLLEGE

Y.Bhg Dato' Jeffrey Cheah briefing YB Dato' Seri Anwar Ibrahim on the up-and-coming new Sunway College campus. Looking on are YAB Tan Sri Haji Muhammad bin Haji Muhammad Taib and Y.Bhg Dato' Musa Hitam

The arrival of YB Dato' Seri Anwar Ibrahim

**S**pending \$90 million to set up a new campus with a perfect infrastructure and well-equipped facilities for quality learning is indeed a big investment. Such commitment and big investment only show one thing – Yang Berbahagia Dato' Jeffery Cheah's (The Group Managing Director) commitment towards education and society.

His seriousness shows that he is not out to make money but more to serve the society as there are only a few private institutions which are operating in compliance with the requirements of the Education Ministry and to accommodate the vast number of students seeking higher education.

Con't to pg 2

Invited guests at the Sunway College ground breaking ceremony

He is quoted as saying that "no investment is too big when it comes to educating our children who will one day be the leaders and entrepreneurs of our nation", during the official ground-breaking ceremony of Sunway College on March 9, at Bandar Sunway.

The ground-breaking ceremony of the new campus was performed by YB Dato' Seri Anwar Ibrahim the Minister of Education. Among the distinguished guests were Malaysia's special envoy to the United Nations who is also the Chairman of Sunway College, Datuk Musa Hitam and Menteri Besar of Selangor Tan Sri Dato' Haji Muhammad bin Haji Muhammad Taib.

Earthworks and piling for the new campus has already underway on the 24 acres of land overlooking a magnificent lake. The first phase which has a built-up area of 180,000 square feet is due to be completed in 1992. It will consist of a five-storey academic block equipped with lecture halls, theatres, libraries and drawing and technical rooms.

The whole outlook of the new Sunway College will be complete with the building of the 780,000 square

feet of the second phase which has a 13-storey hostel and an additional academic block which include lecture halls, theatres, laboratories and libraries.

The new campus will be able to accommodate 8,000 full-time students upon completion and enrolment is expected to commence in late 1992.

## STOP-PRESS

### Four from Sunway honoured for excellence

THE NEW STRAITS TIMES,  
29th. APRIL, 1991

WHATEVER the end results may be, four Sunway College students undergoing the twinning programme at the Western Michigan University (WMU) will surely come home smiling.

They have done their college and country proud by taking the honours for academic excellence.

Devabalan K. Theyventeran came out tops among the four when he became the only student at the university to receive the Phi Kappa Phi 1990 Fellowship award.

The prestigious award also gives Devabalan the opportunity to further his studies in International Business at WMU.

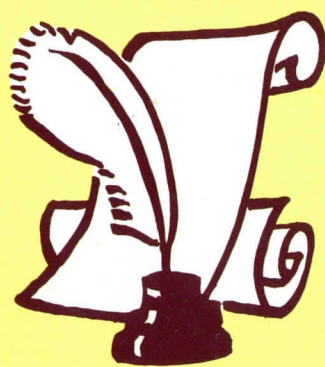

He also qualified for the university's \$20,000 scholarship.

Devabalan was one of the six candidates selected to present a working paper at the Annual Conference on Undergraduate Research in Pasadena, California last year.

Undergraduate Goh Doh Kit was awarded a scholarship for \$2,055. He was one of the three recipients of WMU's annual awards.

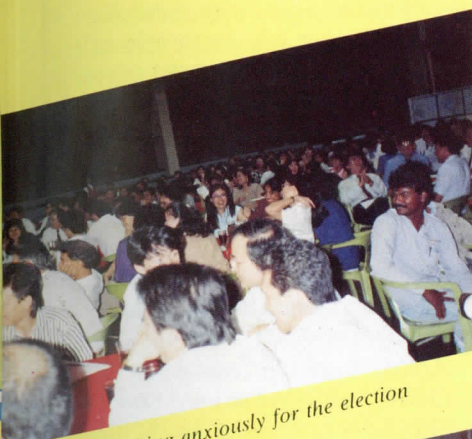

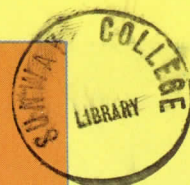

Chow Yu Kong and Ha Kee Chin, who did not win any cash awards, made it to the *Who's Who in Undergraduate Education in the USA* list.

# KSS AGM

Members waiting anxiously for the election

The newly elected committee

At the registration counter

**T**he long-awaited day finally came. A group of new office bearers for the Kelab Sukan Sunway was elected during the recent AGM which was held at the Civi Hall.

The night saw the attendance of more than 250 staff from various subsidiaries.

Before the election took place, a speech was given by the outgoing Vice-President, Encik Abdullah Mohamed, followed by a session of dialogues of questions and answers by the ExcOs comprising Yang Berbahagia Dato' Jeffrey Cheah, Mr Chew Chee Kin and Mr Quah Siak Seng.

Yang Berbahagia Dato' Jeffrey Cheah was given the honour to present prizes to all the winners in the various games played during last year's Sports Carnival.

To show appreciation towards the out-going committee and to welcome the in-coming ones, fellow staff were treated to a sumptuous buffet dinner after the election.

The 1991/1992 Kelab Sukan Sunway's Committee Members are listed below:

**President:** Chew Chee Kin

**Vice-President:** Abdullah Mohamed

**Honorary Secretary:** Jeannie Lau

**Assistant Honorary Secretary:** Christine Chye

**Honorary Treasurer:** Chiam Tun Cheng

**Assistant Honorary Treasurer:** Jennifer Ding

**Sports Social Officer:** Ng Eng Lee

**Ordinary Committees:** Yong Mei Mei  
Yeoh Guan Min  
Nasir Ahmad

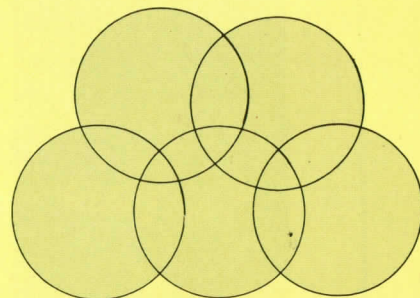

**Honorary Auditor:** Gary Lim

**SUNOCO**

EXCEEDS  
API  
SG/CD

The Engine Protector —  
Ultra™ extends engine life by protecting  
against wear, heat, sludge and  
deposits in all critical engine areas.

Ultra™ — A full range of superior quality  
lubricants for virtually every application.  
Ultra™ — THE ENGINE PROTECTOR.

Some of the Sunoco lubricant products

## Sunoco Lubricants

The Industrial Product Division of Sungei Way Marketing Sdn Bhd has been awarded the exclusive distribution rights to the Sunoco range of products for the Malaysian market by Sun Oil Far East, Inc (the Far East sales office of Sun Company Inc, U.S.A.). The full range of lubricant products consisting of motor oil, gear oil, motorcycle oil and hydraulic oil for industrial users will be distributed throughout the country.

Sun Company is a major US energy corporation which was founded in 1886. Presently, Sun has assets of USD8.7 billion and annual revenues of USD11.4 billion. It is also listed in the "Fortune" as one of the 100 top companies.

Apart from international oil exploration and production, Sun is active in the refining and marketing of petroleum products on the Eastern Coast of the U.S. and Canada. It is the second largest manufacturer of lubrication oils in the U.S.A.

In 1931, Sun built one of America's first long distance petroleum products pipelines spanning over 730 miles. In 1937 the world's first commercial catalytic petroleum cracking plant was commissioned by Sun Company.

Sun International Exploration and Production has identified several areas of interest for acquiring exploration acreage within the FAR EAST region. In Malaysia, Sun International holds interests in three (3) contract areas. Sun has also commenced seismic on its SB8 block — this will be the first seismic ever recorded in this area on onshore Malaysia.

Sun is presently at the forefront of the development of environmentally compatible fuels. Its Sunoco Ultra gasoline, at 94.0 Octane, is the highest octane, unleaded gasoline available among U.S. brands.

Sungei Way Marketing looks forward to a long and mutually beneficial relationship with Sun Oil.

**WONG FOOK CHAI**  
Sungei Way Marketing Sdn Bhd

## WHY USE SUNOCO ULTRA SG?

The API SG category for passenger car engine lubricants was officially adopted in March 1988.

This API SG services classification arose from a variety of factors, primarily because API SF quality oils were found to be the most serious shortfall of API SF engine oils.

API SG was then developed to eliminate sludge build-up and to improve on other performance characteristics of API SF engine oils.

## API SG vs SF

- 60% less sludge
- Control engine deposits
- Cleaner engines
- Better engines
- 100% less engine wear
- Better thermal stability
- 600% less oil thickening
- Longer engine life
- Lower maintenance costs

Today's vehicles demand more from engine oils to combat the effects of congested driving conditions, higher engine temperatures and higher revving (RPM'S).

Sunoco, a world leader in lubricants for over 100 years, responded to the challenge and developed the Ultra Line of Lubricants.

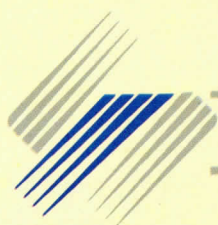

Sunoco, has formulated the Ultra line to exceed the needs of today's engines as well as those of the future.

Extensive research, testing and Sunoco's lubricant experience helped to create these superior quality products.

Ultra engine oils are formulated to meet or exceed the needs of virtually every gasoline and diesel engine. Both Ultra SG and Super C exceed the API SG services requirements and meet or exceed the strenuous Japanese Automobile Standards Organization (JASO).

Sungei Way Marketing Sdn Bhd

# New Name and Logo for SWCS

**SUNWAY COMPUTER SERVICES**

(A MEMBER OF THE SUNGEIWAY GROUP)

**W**ith effect from April 1991, Sungei Way Computer Services Sdn Bhd will be officially known as **SUNWAY COMPUTER SERVICES SDN. BHD.**

The company has also adopted a new logo. It is shaped from a perfect square with graphic line movements taking the form of an "S". This signifies that while specializing in their own field and having their own independence in terms of expertise, the company is a member of the Sungei-Way Group, one of Malaysia's fastest growing conglomerate.

The colour "blue" represents the close working relationship between Sunway Computer Services and IBM while grey is chosen to epitomize stability, reliability and dignity.

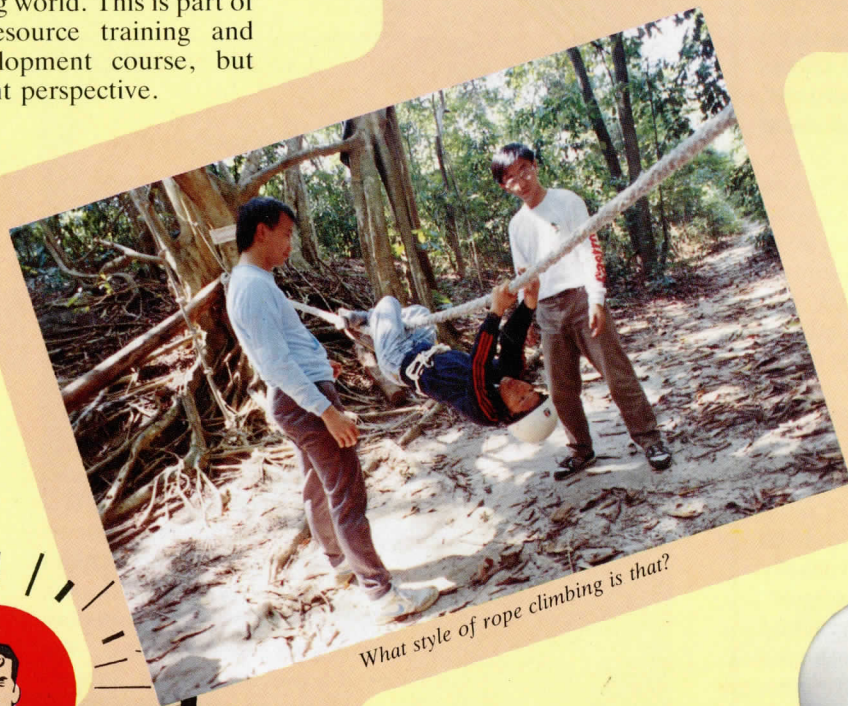

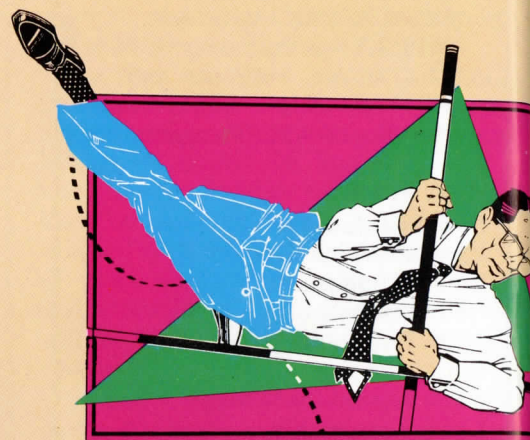

To sharpen one's alertness and mental fitness, one need not always be confined to the boardroom alone; they are many other ways of achieving these.

Training can also be obtained through social interaction or through nature and the environment such as the sea and the mountain.

Mr Lee Chun Yee, an employee of SWG, was one of the lucky few who was selected to undergo a training that leaves him with a fond and an unforgettable memory. Its truly an experience of a lifetime for this young energetic man who was sponsored by Hongkong Bank-OBS to a 10-day Executive Leadership Programme at OBS.

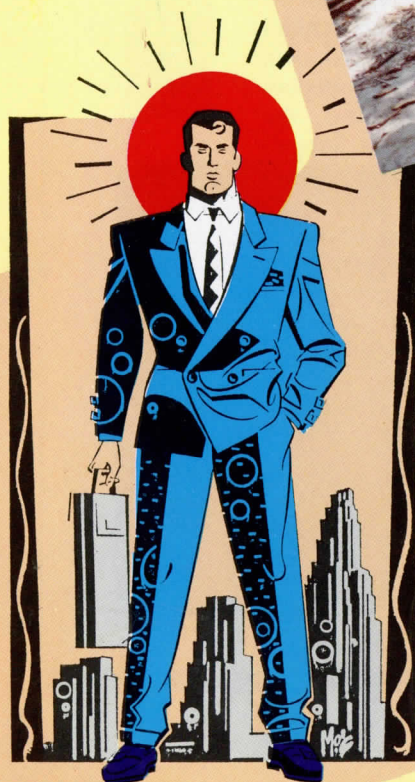

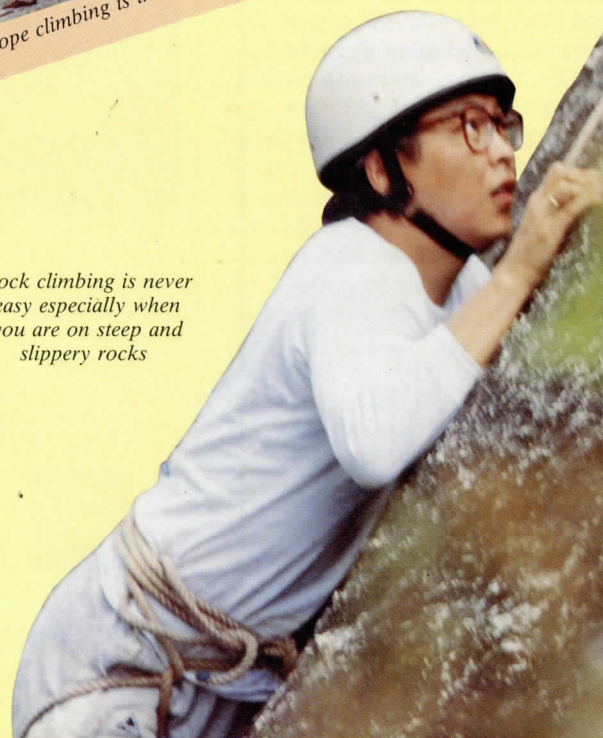

OBS which stands for Outward Bound School is a non-profitable organization which teaches the technique of survival - a course designed specially for busy working executives to enable them to have a better insight of themselves when they come to facing the challenges in today's working world. This is part of the human resource training and personal development course, but from a different perspective.

# Training of a Different Kind

What style of rope climbing is that?

Rock climbing is never easy especially when you are on steep and slippery rocks

During the 10-day course, the participants were put through a series of strenuous physical activities such as abseiling, rock climbing, repelling, sailing, mountain climbing, rope handling, kayaking, jungle trekking and camping.

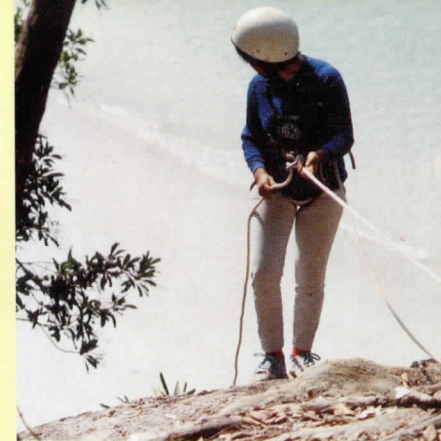

It is under such pressure that strangers became the best of friends. Through this programme, they learnt the importance of sharing, teamwork, survival skills and leadership skills. It needs a lot of self-discipline, self-perseverance and mental fitness to be able to complete this programme.

In such a short span of time, the course helped to sharpen the mental attitudes, alertness and leadership qualities of the participants.

After having been drilled for 10 days, they are now prepared to step back into the boardroom to face the ever demanding challenges of their professions that await them, with CONFIDENCE.

Such training programmes are very healthy and useful to SWG employees and it would be a nice thought for SWG to sponsor its employees in the future.

# SUNWAY WATER THEME PARK

In the last issue, we have featured the overall Resort Development at Bandar Sunway. One of its most distinguished components is the Sunway Water Theme Park which will be Malaysia's first water recreation park. It is expected to attract at least 500,000 visitors in the first year of operation.

This month we bring to you a close-up of the artist's impression of our proposed Sunway Water Theme Park for your attention.

An aerial perspective of Sunway Water Theme Park

# SUNGEIWAY GROUP ANNUAL DINNER & DANCE

## **SPEECH BY GROUP MANAGING DIRECTOR**

**Y**ang Berhormat Dato' Seri Rafidah Aziz, Minister of International Trade & Industries and Dato' Basir;

Yang Berhormat Dato' Napsiah Omar, Minister of National Unity and Social Development;

Yang Berhormat Dato' Sabbaruddin Chik, Minister of Culture and Tourism and Datin Faridah;

Yang Berbahagia Tan Sri Azman Hashim and Tunku Arishah; Dato'-Dato', Datin-Datin;

Honoured guests, my fellow colleagues;

Ladies and Gentleman.

Good evening and welcome to the SungeiWay Group annual dinner and dance.

We are very honoured indeed to have with us three ministers and many other distinguished guests to grace our function.

My colleagues and I wish to extend to all of you our deep appreciation for your presence here tonight to join us in celebrating this annual event of our Group.

1990 was a very rewarding year for SungeiWay. The conducive economic climate in this region, especially Malaysia contributed much to another year of record profits for us.

Our three VIP guests have contributed much to the growth of our nation and it has been partly through their enlightened leadership, guidance and dedication that Malaysia has prospered.

Our economy continues to grow from strength to strength and confidence amongst investors is very high. In 1990 the investment value of proposed manufacturing projects reached a staggering \$49 billion – up more than 50 percent over the \$20.14 billion figure for 1989.

This is an impressive performance by anyone's standards and we at SungeiWay would like to publicly endorse Yang Berhormat Dato' Seri Rafidah's efforts in this direction.

*L-R: Dato' Sabbaruddin Chik, Dato' Jeffrey Cheah, Datuk Seri Rafidah Aziz, Datuk Basir Ahmad*

1990 also witnessed the highly successful staging of Visit Malaysia Year. The campaign, to promote tourism in Malaysia, resulted in an Orang Utan called "Wira" enjoying as much publicity as Yang Berhormat Dato' Sabbaruddin Chik and more importantly earned Malaysia about \$4 billion in foreign exchange between January and November.

In this period 6.5 million tourists visited our shores – an increase of more than 58 percent over the 1989's figure of 4.08 million. This great achievement must largely be attributed to the untiring efforts of Yang Berhormat Dato' Sabbaruddin Chik.

But what use is all the wealth in the world if there is no peace and unity. In Malaysia we are fortunate in that we live in peace and harmony as well as enjoy a relatively high standard of living. Yet we must work harder at being a united force of citizens if our nation is to continue its rapid development.

*The Sungeiwayans at their Annual Dinner*

By creating a new ministry for National Unity and Community Development under the care of Yang Berhormat Dato' Napsiah, the government has accorded top priority to the building of solid and caring citizens to spur the nation to even greater success.

Yang Berhormat Dato' Napsiah as we know was the Minister for Public Enterprises where she has done much to rationalise and systemise the entrepreneurial activities of the Government. We at SungeiWay wish her well in her new and challenging post and offer our support for her efforts in strengthening our community.

Yang Berhormat Dato' Seri Rafidah, Yang Berhormat Dato' Sabbaruddin and Yang Berhormat Dato' Napsiah – the SungeiWay Group is indeed very proud and honoured that you are here sharing tonight with us. We assure you of our support in your endeavours to continue the successful development of Malaysia.

Coming back to SungeiWay, as our Group is very diversified, I will not attempt to mention the performance of each and every company. Suffice to say that the results of all companies were most inspiring. This augurs well for the Group taking into account our financial setbacks during the recession.

Since a substantial portion of our operations are concentrated in the construction and building material sector, we have benefitted immensely from the activities generated by the private as well as the public sector.

Where necessary, we have expanded our production capacities and this included a new quarry in Penanti, Penang as well as a new plant in Johor Bahru.

On the strength of our operational facilities and capabilities which are strategically located, we are well poised to meet the demands that are expected this year.

On the property front, 1990 was a very active year for the industry as a whole. All launches by Bandar Sunway were successful resulting in the sales of more than 400 units of single and double storey houses, industrial shopplots and double storey shophouses.

For 1991, Bandar Sunway plan to launch approximately 1,800 units of industrial shopplots, condominiums, shophouses, residential houses and flats. I am confident these will be well received based on our track records.

The construction of our new College campus at Bandar Sunway is on schedule. Yang Berhormat Dato' Seri Anwar Ibrahim has accepted our invitation to perform the ground-breaking ceremony on 4th March.

The first phase of the project will enable us to increase our student population from the present level of more than 1,700 to approximately 3,500. The demand is there and I am confident that, in the not too distant future, we will have to commence the second phase of the College expansion programme so as to accommodate further intakes.

Aside from Petaling Jaya, we are also investigating the possibility of starting a campus in Johor Bahru.

Mr KL Tan, Senior General Manager of Sunway Way Construction, receiving the 'Top Contributor award' for three consecutive years from Datuk Seri Rafidah Aziz. Looking on is Dato' Jeffery Cheah

One of the major corporate events last year was the revitalisation of the claypipe project which was shelved four years ago due to recession. Late last year, we signed a new joint-venture agreement with Keramo of Belgium to manufacture Keramo

pipes. This will be the biggest vitrified claypipe plant in South East Asia.

The plant, costing \$35 million, will be located in the Klang Valley with a capacity of 40,000 tonnes annually. Production is expected to commence in 1992 with some 30% to 40% for exports. The plant will employ more than 200 people.

We have made further progress in our plans to expand overseas. As of now, we have operations in Australia, Indonesia, Thailand and Brunei.

Our interest in Australia includes a horticultural company in Darwin which is the leading supplier of fertilizer and garden products in the northern territory of Australia. We have also concluded an arrangement to acquire a construction company in Brunei.

Even though we have done well in our expansion plan overseas, there is much more to be achieved to firmly establish our Group throughout the Asean region including Australia and New Zealand.

Work on our new Headquarters situated on a 6-acre site at Bandar Sunway is expected to commence in the middle of this year. It will comprise an 18-storey tower block surrounded by three lower office blocks of six storey each and an auditorium. The first phase of the project is scheduled for completion mid 1993.

Ladies and gentlemen, this year we will commence the development of Bandar Sunway Town Centre which covers an area of approximately 175 acres. We have engaged a leading firm of master planners from Hawaii to advise us on this very important project which will include our Group Corporate Headquarters and new College campus.

Also included will be a 500-room 4-star resort hotel, a Theme Park, amphitheater, amusement lake, shops, commercial centre and service apartments. The centre of the development will be a big clear lake of 17 acres surrounded by 20 acres of lush landscaping and greenery with natural limestones outcrops and waterfalls.

The whole development, when completed in about five to six years time, will cost approximately \$800 million.

The Group has come a long way since the last recession. All our companies are now operating from solid and sound financial base. Our success is due largely to the dedication, diligence and commitment of our employees. I thank them for their contributions and loyalty.

Dato' Jeffery Cheah welcoming Dato' & Datin Douglas KK Lee

The Singing Shop's Sulianos

Camelia Bates in action

Ladies and gentlemen, let us show our appreciation to the organizing committee by giving them a good round of applause. Thank you.

I also wish to thank our business associates and well wishers who have donated prizes for our lucky draws and contributed generously to our souvenir programme for which the proceeds will go entirely to Kelab Sukan Sunway.

Lastly, I wish all of you every success and also a very happy and prosperous 1991.

Thank you once again and I hope you will have a very enjoyable evening.

Tonight, we will be presenting long service awards to six of our employees who have served the Group for more than 10 years. I extend to them my congratulations and the appreciation of the Group for their achievements and contributions.

Tonight's function is organized by Kelab Sukan Sunway. The organizing committee has put in long hours. They have also made personal sacrifices to ensure the success of tonight's function. They have lined up an interesting programme this evening for our entertainment and enjoyment.

*Congratulations*

## DATUK MUSA!

**D**atuk Musa Hitam, the former Deputy Prime Minister and Malaysia's special envoy to the United Nations, was recently appointed Chairman of Sunway College's board of directors and its academic board.

The appointment of Datuk Musa was a right choice considering that he has vast experience and indepth knowledge in education; he will therefore be able to contribute to the growth of Sunway College. He was formerly the Minister of Education before being appointed Deputy Prime Minister in 1981.

# Congratulations

25TH JANUARY, 1991

**JDEdwards**  
SOFTWARE THAT ENDS

# JDEdwards Software for SWCS

**R**ecently, Sungei Way Computer Services Sdn Bhd was appointed as the authorised distributor for the JDEdwards range of software products in Malaysia.

The JDE software products provide solutions to complex problems such as those faced in production planning and control needs in manufacturing; they also meet the demands of distribution and construction.

Its products are extremely high in quality and they are:

– rich in business function

- easy to learn and modify
- cost effective & comprehensive
- management oriented & pragmatic
- flexible

At present, there are about 10 JDE installations in South East Asia and SWCS is currently in the process of installing a JDE system at the Johor Port Authority.

Its costumers include Sime Information Services, Jurong Shipyard and Cahners Exhibition Group.

Apart from Malaysia, JDEdwards is also distributed to

Singapore, Australia, New Zealand, Philippines, Japan and Hong Kong through its representatives stationed there.

During the signing agreement which was held at KL Hilton on January 25, a range of JDE software products were put on display for viewing.

SWCS will now officially provide sales and support services for JDE software in Malaysia and it is expected to generate \$2 million in sales this year.
