

SUNWAY KERAMO SIGNS \$34 MILLION SYNDICATED CREDIT FACILITY

(L-R) Mr Chew Chee Kin, Dato' Jeffrey Cheah, En Izham Mahmud, En Zahari Idris

Dato' Jeffrey Cheah exchanging document with En Izham Mahmud, Managing Director, Aseambankers Malaysia Berhad

On 28th August 1991, Sunway Keramo Sdn Bhd, a member of the SungeiWay Group of companies, signed a MYR34 million syndicated credit facility with two banks to finance the construction of its manufacturing plant in Selangor. The syndication is arranged by Aseambankers Malaysia Berhad (ASEAMBANKERS).

The MYR34 million credit facilities comprised of MYR13 million Letter of Credit, MYR13 million Term Loan and MYR8 million Trade Facilities, will be used to part-finance the setting-up of the vitrified clay-pipe manufacturing plant in Kapar, Selangor and to import machinery and plant equipment.

SKSB, a joint venture between the Sungei Way Holdings Berhad (SWHB) and NV Keramo of Belgium, expects to start manufacturing high quality "Keramo Brand" vitrified clay-pipes (VSPs) for the local and export markets by end 1992.

The loan agreement was signed by Dato' Jeffrey Cheah, SungeiWay Group (SWG) Chief Executive Officer, Mr Chew Chee Kin, SWG Deputy Managing Director (Operations), and En Izham Mahmud, Managing Director Aseambankers Malaysia Berhad, the facility manager.

Under the agreement, Aseam-bankers will provide a MYR11 million credit facility, while Malayan Banking Berhad will provide a MYR23 million facility which includes the Letter of Credit provision.

Construction of SKSB's modern plant has already commenced and will be fully commissioned by late October 1992. It will employ more than 200 workers when fully operational.

The plant will initially be able to produce 20,000 tonnes of VCPs and fittings annually under a single-shift operation. Up to 40,000 tonnes can be manufactured if a two-shift operation is adopted.

The VCPs, used mainly as underground sewers, will be manufactured to meet the highest American, European and British standards. All raw materials will be sourced locally.

"We aim to be market leaders in VCP's when our plant is fully operational and we will export between 30 - 40 per cent of our production to the Asia-Pacific region," said Dato' Cheah.

"We have targeted a turnover of \$20 - \$30 million in the first 20 months of operation," he added.

NV Keramo, which is a member of the Kumpen Group of Belgium, is a leading producer and supplier of high quality vitrified clay pipes for more than 30 years, selling more than 120,000 tones of VCPs annually. The SWG has been associated with the Keramo brand VCPs for many years in its capacity as the sole distributor, selling the products in Malaysia, Singapore, Brunei and Indonesia.

In a happy note Yang Berbahagia Dato' Jeffrey Cheah concluded, "Local Manufacture of VCPs will contribute towards savings in foreign exchange. Imports can be curtailed. At the same time we will also gain foreign exchange from our exports. Most important of all we will benefit from the transfer of technology and skills from NV Keramo".

THE SUNWAY CORPORATION IN AUSTRALIA

The Sunway Corporation has been established in Australia since July 1989 under the early guidance of Bob Dehle who has now assumed the role of Sales Manager Industrial Products.

Bob is assisted in the Industrial Products department by Simon Roz who between them are responsible for the sales of a wide range of Industrial and Hydraulic hoses which are complemented by the world renowned "HYDROFIT" range of couplings.

In December 1990 Peter Garnett was appointed to the position of Sales Manager Horticultural division.

This division has been successful in establishing markets in Australia for many Malaysia products such as Clay Pottery. Coco products, like wire basket liners, coco peat, totem poles and complemented by locally sourced items.

Both these divisions have now established themselves as innovative markets of quality products whilst at the same time effectively servicing a large geographic market.

Australia has a land mass 7,686,420 square kilometres which is one and a half time the size of Europe and almost the same size as the U.S.A.

It is 4,000 km from East to West and 3,000 km from North to South, but it only supports a population base of 17 million people.

The density of population over the entire continent is 12 people to the square kilometre. This low figure is due to the fact that a third of the continent is uninhabitable and the other third the rainfall is too low to permit close settlement.

Distributors and Sub-Distributors have been established in all states of Australia – even in the remote mining areas in the Far North of Western Australia, remote West Coast of Tasmania, and as far as Cairns in North Queensland. These

Mr Rob Stempel of Sunway Corporation

with our capital city and country representatives give us an ideal springboard for growth as and when new products are introduced.

Rob Stempel our Country Manager joined us in July this year visiting Malaysia and Singapore for the first two weeks of his appointment to experience first-hand the group's diversification and strengths.

It was also an excellent opportunity to undergo some early products training and to meet the executives with whom he will be working closely to further develop our strong stance in the Australia market.

The Australia economy is starting to show some early signs of recovery, however a full recovery is probably some 12 months away. This is allowing Sunway Corporation to gain market share and be well positioned to prosper in the rising market.

SUNGEI WAY MARKETING (THAILAND) LTD.

Mr Thanat
Khowattanawintha with
Sungei Way Marketing
(Thailand) LTD in the
background

THE COUNTRY

THAILAND (the name literally means LAND OF THE FREE).

For the past few years, THAILAND has undergone a dramatic transformatio which emerge as Asia's probable next newly industrialised country. These changes have resulted the country's economic growth to be among the world's fastest.

According to the National Economic and Social Development Board (NESDB), the average real economic growth rates of Thailand are 10.8% for the 6th Plan (1987-1991) and projected to be 8.2% for the 7th Plan (1992-1996). The Thai economy has opened up and become highly internationalized, highly dependent on foreign investment and technology. The country has liberalized its financial system and deregulated the foreign exchange control in phases. These changes will not eventually secure investors in turn for them to be competitive in the world market.

THE COMPANY

The sales operation of Sungei Way Marketing in Thailand has started since November 1990 with the recruitment of one marketing manager. The business was operated in a apartment-cum-office premises with a telefax machine.

The initial mission of establishing this Sungei Way Marketing Thailand operation is to develop a market niche for hydraulic hose and fittings. In the long run, Sungei Way Marketing Thailand hopes to expand its existing line and bring into the country some of the Sungei Way Group's other activities.

On the 1st July 1991, Sungei Way Marketing (Thailand) has shifted into the present office premise which consists of 2 lots of 4-storey shophouses. The frontage

of the office is facing the Ramindra Road (a double lane main road). The office is only 15 minutes drive (normal drive) from the Don Muang Airport. The present staff strength is as follows:

1. One Marketing Manager
2. One Store Supervisor
3. Two Sales Representatives
4. One Secretary
5. One Store Assistant

The bulk of the Sales Turnover comes from the sales of hydraulic hoses. Although we are concentrating on hydraulic hoses and fitting sales, Sungei Way Marketing (Thailand) is also promoting other products like "Gainsborough" Lock-set; "Flag" Socket sets; "Viking" Hacksaw Blade; "James North" Safety Equipment; "MTM" Wear-parts; and "CGR" Replacement Parts.

After all the hardship and hustle, the SUNGEIWAY BASE of Thailand has finally been set up. The future of the company is very encouraging and with the economic boom, huge market size and market demand in Thailand, it will definitely be a good venture for all of our other SUNGEIWAY subsidiaries' activities.

TANAT KHOWATTANAWINTHA
Marketing Manager

SUNWAY STUDENTS SHINE IN LEICESTER

*M*alaysians who undertook a twinning degree programme at Sunway College, Petaling Jaya, shone at the law and engineering final exams at Leicester University, England.

Ooi Huey Ling and Yeow Chun Ming are two top performers in the Law examinations that was conducted at Leicester University in the United Kingdom.

Huey Ling obtained a first class honours LLB and was given a

joint award prize of \$300 for outstanding performance in the Part Two examination while Yeow Chun Ming, who sat for his second-year examination, was awarded the Harvey Ingram and Simpson Company Law Prize worth \$500.

All the 37 law students from Sunway who sat for the Part 2 final examination passed their papers.

Sunway-Leicester University Law Graduates (1991)

A group of 17 students, pioneers in the Sunway College's Western Michigan University programme, recently graduated with degrees in business administration. They were the first batch of students to transfer from the college to WMU in 1989.

The WMU programme, started in 1987, offers four undergraduate courses through Sunway: business administration, computer science, communications and engineering.

Law and engineering students of Sunway College who undertook a twinning degree programme at Leicester University, have done the college proud by emerging with flying colours in their year-end examination recently.

Besides top performers, Huey Ling and Chun Ming, two received first class honours in engineering degrees. They are S.J. Goh and W.L. Liew. S.J. Goh was awarded the R.A. Grierson prize of \$250 for best performance in industry-linked courses while W.L. Liew won the Federicks Barnes Waldren prize of \$450 for the most outstanding student in mechanical engineering.

All 37 Sunway students who sat for the final examinations passed.

First Graduating Class of Sunway-WMU students at Western Michigan University

SCHOLARSHIP FOR STUDENT

*S*unway College student Tan Lien Seng, 19, became the first Malaysian to win the Leicester University Engineer's Association for achieving the best overall performances in the first year of the university's Bachelor of Engineering honours degree course.

Lien Seng outperformed 106 other students, including 81 from Leicester University. He and 25 others students from Sunway College sat for exactly the same examination papers as the undergraduates at Leicester University.

His prize – a certificate and a cheque – was presented to him by Leicester University Vice-Chancellor Dr Kenneth Edwards on Thursday. Lien Seng will leave for Britain in September to continue his course.

GOMBAK SCHOOL WINS ENGLISH DEBATE

The Sekolah Menengah Lembah Keramat Gombak won the second Upper Secondary Inter-School English Debate after beating SM Sultan Abdul Samad (SAS) at the Maktab Kerjasama Malaysia.

The motion was Mankind is Certainly Heading Towards a Better Future. The trio opposers from SM Lembah Keramat Gombak were witty, concise and sound in their argument when debating against their opponents.

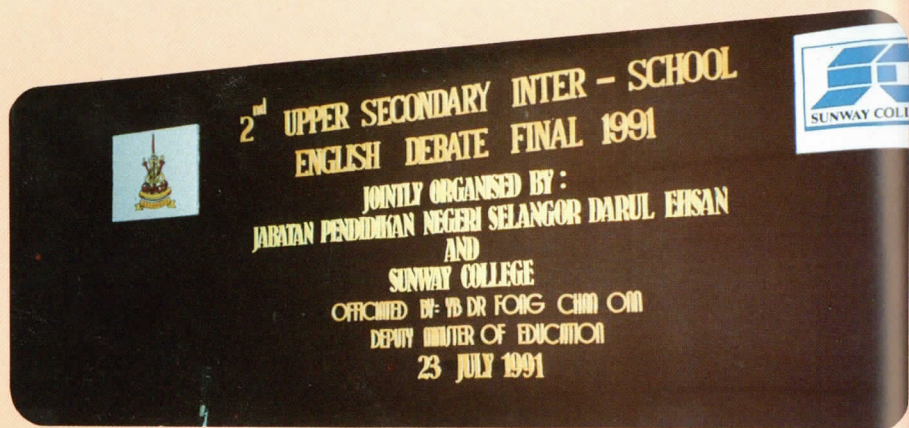

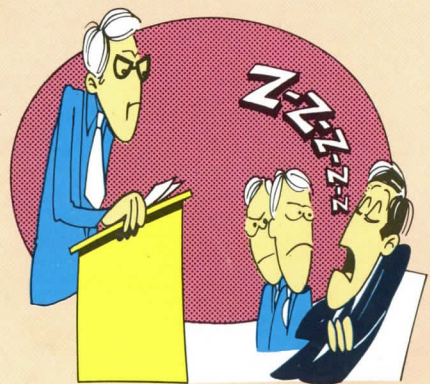

Not only did they amerge victor in the finals of the debate, but they also won \$500, plaques and certificates.

A total of eighty-six schools in the state took part in the debate which is a annual event jointly organised by Sunway College and the Selangor Education Department.

Present at the debate were the Deputy Minister of Education Dr Fong Chan Onn who officiated at the debate and the Selangor Education director Haji Jumali Kassan.

The aim of the debate was to improve the students' command of the English Language.

The winners were determined by the contents, language and presentation of their arguments.

NOLOGY AND CONTRIBUTES TO THE
DEVELOPMENT.

To CREATE A CARING SOCIETY - A
SOCIAL SYSTEM WHICH PUTS SOCIETY'S
NEED AS THE MAIN PRIORITY ABOVE
INDIVIDUAL INTERESTS.

To ENSURE A BALANCED ECONOMIC
SOCIETY.

To CREATE A PROSPEROUS AND
COMPETITIVE SOCIETY AND ECONOMY.

Karen, Alice, Gary

*S*ungei Way Risk Management Sdn. Bhd. (SWRM) expanded its operations to the southern and northern region this year to capture its vast business prospect. Both branches are overseen by our Chief Manager, Mr. David Lee.

The principal activities of the branches are as Insurance Underwriter for general insurances, of which more emphasis are placed on Non-Motor classes of insurance.

SWRM Johore Bahru Branch was set up on 2nd January 1991 and is presently operating at Wisma Maria, Johor Bharu. The Branch Manager is Mr. Ricky Chen Joo Siang and he is efficiently assisted by Miss Shirley Ong Lim Kock (Branch Executive) and Miss Patricia Ng Chiew Hway (Branch Assistant).

SWRM Penang Branch was set up on 1st May 1991 and is located at Wisma Denko, Penang town centre. It is headed by Mr. Gary Eng Chee Beng, the Branch Manager and is capably assisted by Miss Karen Loh Lai Ying (Branch Assistant) and Miss Alice Kim Ai Lee (Clerk/Typist).

SWRM also provides professional consultation and risk management services to the growing needs of insurance consumers for both within and outside the Sungei Way Group.

Shirley, Ricky, Patricia

TIOMAN ISLAND TRIP

Ah, finally! ... the waiting was over. The 37 sea-faring adventurers, (maybe more appropriately the rough riders cos' the bus rides ruffled our backs and bottoms for 10 hours – to and fro!) eagerly and gleefully stepped aboard the 40 seater ... some preoccupied with their thoughts of how and what the days and nights in the renowned island shall be like ... others were too occupied adjusting their bottoms, trying to quell the soreness. Anyway, it's worth the suffering and all were forgotten when we scrambled into the catamaran, Kita Express ... shoo ... sh ... Pulau Tioman here we come!

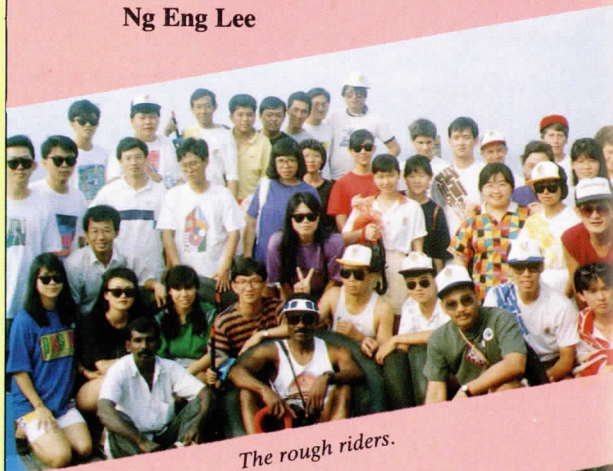

Tioman Island, one of the 10 most beautiful island in the world ... the Bali Hai of the Pacific, featuring some cascading waterfalls and our very own Twin Peaks. A tropical paradise endowed with a marine haven, clear blue water, sweeping sandy beaches, resplendent corals and fishes (sharks inclusive!!) ... for sun and sea lovers. Indeed, the beauty, the tranquilities ... and the magnificent Twin Peaks from the ferry was a sight to behold.

The ooh, ahs ... wows were exaltations and the ohs ... eeks from the awed. Then, so captivating was the cool cascading waterfalls, that the dreadful aching limbs were soothed ... the lively antics at the lovely pool expunged the bot...toms sufferings (bus/boat rides) from the mind!

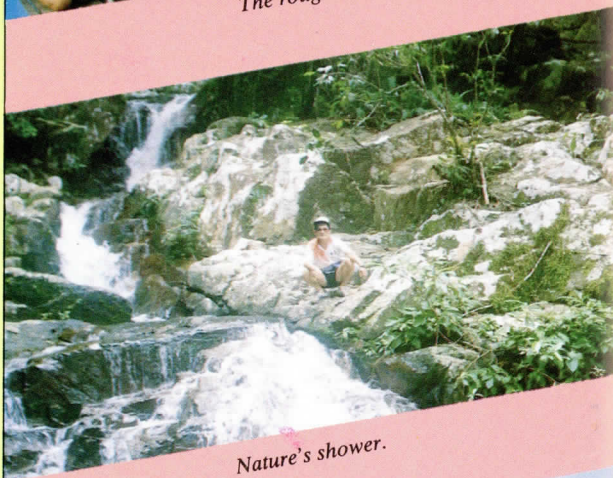

The days were lively ... snorkelling/diving (both face down and face up?!), fishing for those with tails and those without plus a visit to the island's one and only first-class resort. A group of us tried to shoot down the One-arm Bandits but got robbed of our bank instead!!! The nights were lovely and romantic ... BBQ, sumptuous fish, crabs, prawns, sotongs ... etc and the gourmet's delight (typical fishing village dinner-lah). And, in the wee hours ... pok-kuats sessions were interrupted by loud piercing cries (we have some were-wolves and gnomes prowling the chalets, female ones only) and excited sounds of smacks.

The idyllic days and nights were done ... time to kiss bye-bye ... and as if to illustrate the sullenness, drizzles came as we stepped abroad the Kita Express ... ferrying us back to the hustle-bustle civilization.

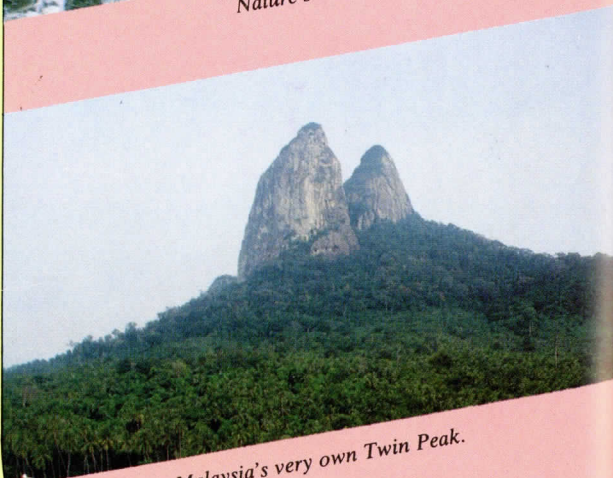

Ng Eng Lee

The rough riders.

Nature's shower.

Malaysia's very own Twin Peak.

WE WALKED ALL THE WAY...

The Malay Mail Big Walk (MMBW) 1991, 11 August 1991 – The “big” day finally came. We are going to show them all that we can do it – with or without the so called important element – training! Well, most of us had no training whatsoever and we proceeded just as we were.

The response from KSS members towards the MMBW was fairly good. For those who participated, KSS has generously provided them with t-shirts and caps printed exclusively for the event.

The most difficult task that morning was getting up from bed. I am sure most of us had to drag ourselves off our slumberland. “Arghh ... this is madness,” I thought to my self. I am waking up in the wee hours of a SUNDAY morning – the only day which I could sleep till 12 noon, not get up at 5 a.m.!

Most of us girls were registered under the Women Senior category (10 km) and the guys, Men Senior category (12 km). Both groups were flagged off at 7.15 a.m. at Padang Merbok and Dataran Merdeka respectively. We had to be there early to report ourselves as well as to “book” the front rows at the starting line. The secret, I learnt was, stand in the front rows of the starting line and you are guaranteed to finish within the qualifying times. And we did – we made it within the qualifying time of 1 hour 40 minutes (or 1 hour 50 minutes in the case of Men Senior). Of course, you have to keep your walking pace consistent.

For a first timer, the route would seem endless. They had estimated to finish in at least three hours, if not, “patah balik”. But as some sort of “motivation”, walking in a huge group makes a whole lot of difference. Watching the others walk pass you seemed to trigger the accelerator in you to catch up if not overtake them. At the end, we were so proud to see those, who had earlier spoke with no confidence, walked pass the finishing line with the crisp clear qualifying certificate!

Well done folks!!

Yong May May
Sungei Way Risk Management

Definition of Walk

Walking is progression by steps so taken that unbroken contact with the ground is maintained. At each step, the advancing foot of the walker must make contact with the ground before the rear foot leaves the ground.

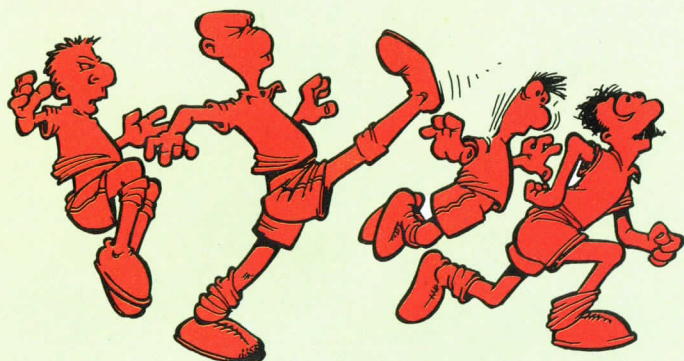

During the period of each step in which a foot is on the ground, the leg must be straightened (i.e. not bent at the knee) at least for the moment and in particular, the supporting leg must be straight in the vertically upright position.

- Services: LLN substation, pump room, switch room & refuse collection centre
- Change rooms for male & female with lockers, toilets, showers & saunas
- Verandahs for informal eating area

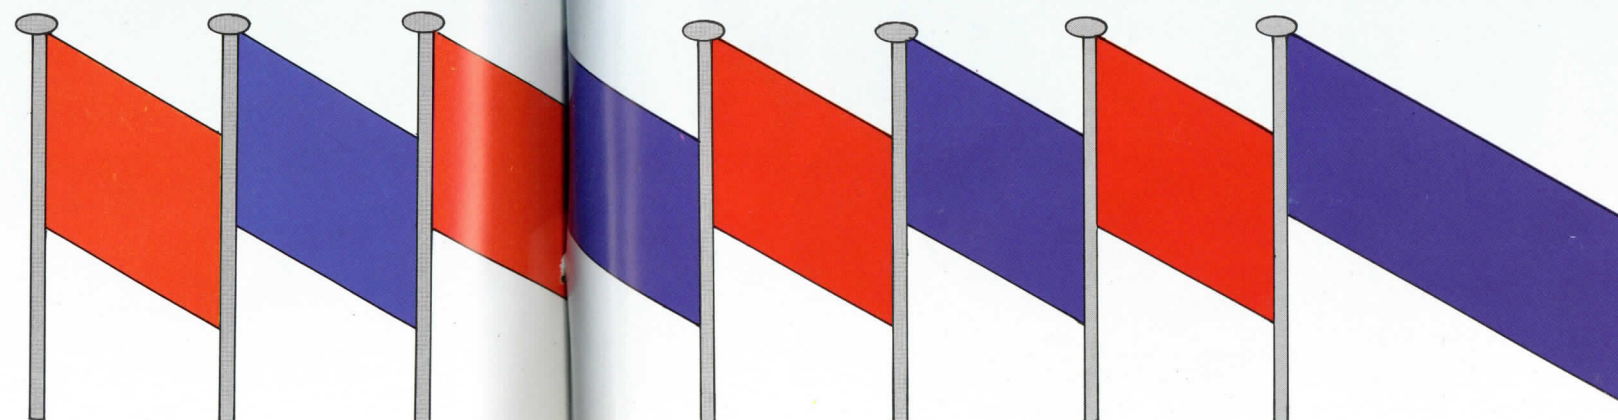

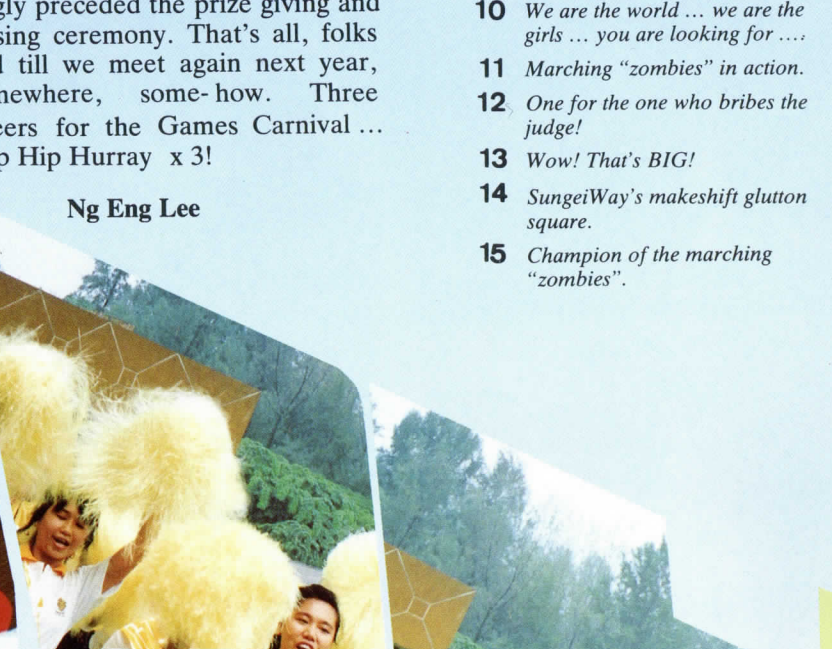

First Floor Plan

- Billiard room – 4 billiard tables
- Club lounge – comfortable seating approx 30 persons
- Administration office

SUNGEIWAY GAMES CARNIVAL 1991

When will we reach Olympic standard? Aiyah! We are Olympic standard already! ... all our photos are taken with A1's Olympus camera!

The SungeiWay Games Carnival 1991 ... the grandest sports event of the SungeiWay Group kicked off in May ... and months of frenzied, keenly fought contests generated plenty of excitements, enthusiasms and anticipations as well as contemplations, not to mention upsets ... culminated in the Grand Finals (Games Carnival Day) at the Specialist Teachers Training Institute in Cheras! The

months of preparations, tons of sweats and weight loss, and the strained muscles and limbs were worth every ounce of it! The Games Carnival became the talk of the Group!

Squash ... followed by Chess, Carrom ... you name it, we have it (only popular one-lah). All in, 10 games were played from their preliminary stages with only table tennis, volleyball, football, netball and badminton finals stages held on Carnival Day. Yeap, swimming ... you should noticed some water babes and also a few water buffaloes ... 'lagi', one or two sharks there!

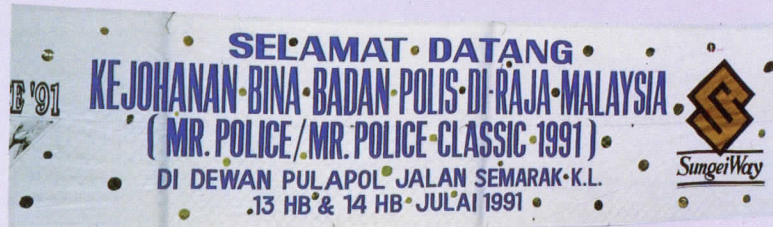

We have the challenge of the Year - the 3,000 meter run. Some 'ayams' and 'iteks' were seen scurrying in the heat, actually it's the heat of the afternoon over the newly patched up bitumen track ... but, alas, we witnessed an anti-climax ... the challenger disappointed the gang of voracious supporters, not to mention the die-hard betters, when our bet, Mr Chew opted out prematurely!!

Ah-ha ... smacks ... and smoo ... ooch ... the vivacious, captivating and pompous Pom Pom Girls Competition which drew numerous wolves-whistles, laughter and mouth-watering ooh-aahs ... befittingly preceded the prize giving and closing ceremony. That's all, folks and till we meet again next year, somewhere, some-how. Three cheers for the Games Carnival ... Hip Hip Hurray x 3!

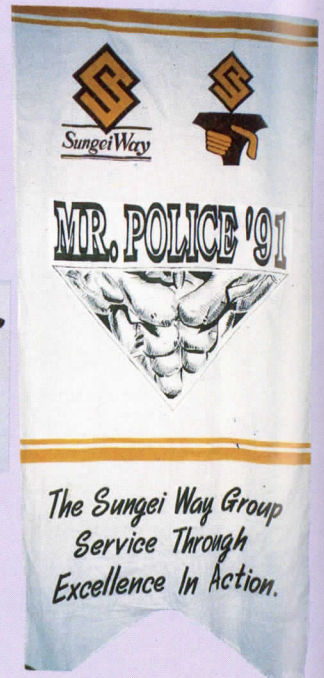

Ng Eng Lee

- 1 I promise you, the champion will get 12 months bonus.
- 2 ... being punished ... speak 100 words.
- 3 We, the SungeiWayans, swear to fight each other till the last one stands.

On the 25th of September 1991; an important announcement was made in Penang. FMS Audio Sdn. Bhd., a joint venture company among Ford, Mazda and Sanyo manufacturing car audio products and components, announced the purchase of a M\$2 million computer system needed to run the company's manufacturing and accounting operations. The required system, will also need to provide electronic links with its R&D branch in Japan.

According to FMS Audio Managing Director Mr. T. Nakano, the purchase of the new system should allow the company to improve the effectiveness and efficiency of both its manufacturing and administrative operations such as accounting, inventory, human resource planning, purchasing and costing.

Sunway Computer Services Sdn. Bhd. (SWCS) provided the solutions to the manufacturing industry with its M\$2 million computer system package which included the installation of IBM AS/400 Model D45 midrange computer with its 32MB memory and over 385 Gigabytes of disk storage, along with 21 IBM PS/2 personal computers, as well as printers, tape drives and other peripherals.

The Computer System provided by SWCS, will be running two software applications previously developed by Sanyo, namely, the Sanyo Overseas Production Information System (SOPIS) and the Sanyo Overseas Accounting Information System (SOAIS) in addition to other applications software such as the payroll system, human resource planning and labour control system.

According to Mr. T. Nakano, the implementation of the new system provides complete, accurate and meaningful information. Analysis can be done quickly and accurately from the information in the new system and this will directly result in speedier and more efficient service for their customers.

"The system provided by SWCS will also help us achieve our corporate goal of having a productive and skilled workforce and the efficient operation of our plant", said Mr. Nakano. He added that the system would also enable the company to design and develop new products in the future, and meet more closely the changing needs of the international market.

SWCS SUPPLIES M\$2 MILLION INFORMATION SYSTEM

In maintaining a good relationship with its customers, SWCS have developed a "Customer Satisfaction Programme" with emphasis on regular contact with the customer and efficient after sales services.

Congratulations Sunway Computer Services on a job well done.
